

Korean College of Cosmetic Surgery

“2016 KCCS Body Lipoplasty Workshop”

Greetings!

Lipoplasty, combining liposuction and fat transfer, is the safest yet most effective procedure in contouring surgery. It is easy to learn, but hard to master. Especially, the new concepts of lipoplasty have been evolving. In order to refine surgeon's skill we hold this workshop and provide the updated concepts as well as concealed details important to you.

Different body parts have their special considerations. In this workshop you will know how to make delicate lipoplasty on face and neck with little bruise and damage to surrounding tissues. The skills of superficial liposuction on body parts will be demonstrated, including abdomen, total arms and back, around things as well as advanced techniques on calf liposuction.

Besides refining manual technique, in this workshop, you also have a chance to learn and compare and use different machines that were developed to help achieve further purposes.

Complications of liposuction and fat transfer can be avoided and corrected. From this workshop, you will learn the skills to avoid and remedy the complication to protect the patient and doctors ourselves.

We extend our warm welcome to your participation. Through this workshop we expect you to become a delicate lipo-surgeon.

We look forward to seeing you in Seoul!

President of KCCS

Seong-Yik Han M.D., DDS., Ph.D., FKCCS

Founder of KCCS

Kyoung-Jin(Safi) Kang M.D., Ph.D., FKCCS
