

2017 KCCS

Fellowship Course 4

Blepharoplasty and Rhinoplasty Workshop

Date : July 21st ~ 23rd, 2017 (Fri– Sun)

Venue : - Myoung Eye Plastic Surgery Clinic, Seoul, Korea
- Hanabi Clinic, Seoul, Korea

Greetings!

The two most common cosmetic surgical procedures performed on face are represented by eyes and nose surgeries. This means that the beauty of the eyes and nose accounts for the highest importance in the field of facial cosmetic surgery.

Also, cosmetic surgery of the eyes and nose are known as the surgeries that received the most attentions from doctors who want to start their career in the field of cosmetic surgery and doctors are willing to pay a lot of hard works to perform the best degree of completion for the surgeries.

However, it is evaluated that these two surgeries are the fields that have the longest learning curve for doctors who are learning facial cosmetic surgery. The reason for this is that, the structures of these two areas are more complex and finer than other areas and always has to consider the functional aspects as they are closely related to the aging process.

KCCS has been working hard over the past ten years for the education in the field of cosmetic surgery. KCCS have arranged a special program that includes basic to advanced courses of blepharo-rhinoplasty.

We are sure that this workshop will be very much helpful to doctors who want to start performing eyes and nose cosmetic surgeries

This will be a golden opportunity to enhance your cosmetic surgical knowledge and skills.

We hope you can join us and have a great experience with many brilliant professionals.

Thanks!

President of KCCS

Woong-Chul Choi **MD, PhD & FKCCS**

Founder of KCCS

Kyoung-Jin(Safi) Kang **MD, PhD & FKCCS**
