

2019

KCCS Anti-aging and Cosmetic Dermatologic Fellowship Course 4
Pre-exam, Cadaver

15-17, 2019 Medicastls clinic /Toz Gangnam Toz Tower
Branch/Department of Anatomy, College of Medicine, Chung-Ang
University

Greetings,

Welcome to the 1st KCCS Dermatologic Fellowship Course by Korean College of Korean Cosmetic Surgery & Medicine (KCCS). We truly hope that KCCS's program and exchange have been helpful, and that your participation will be fruitful. We also wish for the best results on your pre-exam towards graduation. In the 4th session of this course, there will be lecture and live demo on the subjects of "Non-ablative Rejuvenation for Aging Skin in Asian", and "Summary of Obesity Treatment in Korea and Nonsurgical Contouring of Lower extremities".

We would like to share clinical results obtained from aging skin rejuvenation treatments using leading devices and lasers in Korean cosmetics industry, and share relevant experience.

Furthermore, by summarizing latest Korean treatment trends to obesity, which has been increasing globally, we would like to offer an opportunity to explore future obesity treatments in Asian countries in similar situation. Finally, we sincerely hope that the 4th Session of KCCS can be ground of inspiration and pleasure for all participants. Thank you.

Teaching Fellow of KCCS
Hosun Chang MD, PhD & FKCCS

Scientific chairman of
Anti-aging and
Cosmetic Dermatologic Fellowship Course
Jung-Hyun Yoon, MD, FKCCS
